DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 44-61, 70-75, and 90-91, drawn to a model train system.
 - II. Claims 4-5, and 68-69, drawn to a speed control system.
 - III. Claims 6-17, 41-43, and 62-67, drawn to a sound system.
 - IV. Claims 18-20, drawn to a train coupler.
 - V. Claims 21-25, drawn to a smoke unit.
 - VI. Claims 26-27 and 32-35, drawn to a model train control system.
 - VII. Claims 28-29, 76-78, 79-86, and 87-89, drawn to a model train.
 - VIII. Claims 36-40, drawn to sound recording system.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Groups II-VIII are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a combination claim, e.g. claim 1, does not recited the features recited in the subcombination claims, e.g. claim 6. The subcombinations each has a separate utility such as in other types of track guided vehicle systems.

Art Unit: 3617

3. Inventions Group II-Group VIII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of each Group has a separate utility such as in a different type of model track layouts. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search required for each Group is different from the search required for other groups, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Fogarty's office on October 10, 2001 to request an oral election to the above restriction requirement, but he was not available to make an election.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Le whose telephone number is 703-308-3663. The examiner can normally be reached on Mon-Fri (8:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel Morano can be reached on 703-308-0230. The fax phone numbers
